EVENTS ON WHICH WAGERS ARE ACCEPTED

- Wagers are only accepted on approved sporting events, special events as listed in these House Rules or where the wager has been agreed and authorized by Caesars Sportsbook Trading Department. Any wagers accepted in error and not so authorized or covered may be declared void.
- In the event where a market does not reach completion prior to an unscheduled interruption, any wagers placed on that market that have already been unequivocally determined will be settled accordingly. This rule applies to all available markets including futures, props, and game markets. Under individual game circumstances please refer to the relevant sport rule in relation to minimum game length for event markets.
- Caesars Sportsbook may not accept any wagers prohibited under the relevant states gaming regulatory board including:
 - Persons under the age of 21.
 - Persons excluded from properties or online wagering.
 - Persons utilizing unauthorized automated bet placement technology.
 - Wagers placed on behalf of others or via accounts of others.
 - Any person who is currently self-excluded from wagering.
 - Any person who is associated with a professional team or league where league rules or the governing body prevent wagering.
 - If a patron is flagged as an excluded person in the player tracking system, the Sportsbook department employee will not proceed with the transaction.
- Posted odds may change, please check your ticket/betslip receipt prior to confirming and accepting the wager.
- For events that offer a “Field” wagering option, the “Field” is defined as any participant/team that does not offer their own odds and regardless of where that “Field” selection is listed in the wager offerings.
- All wagers will be deemed to have been accepted from the individual placing the wager only, and not on behalf of any entity.
- Wagering rules and conditions are subject to change; please refer to the odds displays in Retail Sportsbooks or on the Sportsbook application for details. If there is a conflict between a stipulation on the odds display and these House Rules, the stipulation on the odds display will prevail.
- In some circumstances, additional information for clarification purposes may be provided when placing the wager.
- Management will keep a record of all point spreads, odds, final scores, and related betting proposition statistics to protect both the customer and Caesars Sportsbook in case of an obvious computer, mechanical, technical, or human error.
- In the event of pandemic or global emergency protocols being implemented by each individual Sports League, please be aware that wagers based on season start dates and length, game length, game time, number of games played, players eligible and any other type of wager available may be affected. Seasons, games, or players being altered, shortened, cancelled, or declared out due to a pandemic or global emergency protocols may include but not be limited to a “No Action” refund depending on the type of wager that was placed.

- Retail Sports wagering tickets will be honored for one year after the date of the event excluding any time the sports wagering or gaming establishment must be closed.
- Any wager over \$250,000 will be verified for accuracy. Upon verification, the wager will be paid immediately.

VOIDED WAGERS

- Situations that are subject to voids include, but are not limited to, situations when the ticket was inadvertently created for the wrong event or team and not the requested wager of the patron, if a patron is found to be an excluded, prohibited, or evicted person, if there is a printer jam or error, or an obvious error in the placement or acceptance of the sports wager. Errors include but are not limited to the sports wager being placed with incorrect odds; human error in the placement of the sports wager; the ticket does not correctly reflect the sports wager; or equipment failure rendering a ticket unreadable.
- Wagers will not be canceled or voided without necessary approvals.

MAXIMUM WINNINGS

- The maximum winnings listed below applies to wagers placed online or in a Retail Sportsbook. The maximum winnings categories are in U.S. Dollars. A wager is accepted on the basis that it is the investment of one customer only and the following is the maximum amount that can be won (excluding stake) by a customer in one day's betting regardless of monies wagered.

SPORT MAXIMUM PAYOUT

****Unless specified within each sports relevant rules which supersede the below value****

\$3 million (unless prior approval has been received)

- Where wagers have been placed on different days, the maximum amount that can be won in one day's betting is determined by the day on which the final event on each wager is resolved, rather than the day on which each individual wager is placed.
- Management determines the minimum and maximum wagers on all events. The minimum wager amount may be as low as \$0.10. The maximum wager amount is \$1,000,000 which can be restricted or increased based on internal management review and approval, per customer, based on sport or event and includes all wager types.
- All Sportsbook application account wagers may only be funded by way of US Currency by cash, cash equivalent, electronic funds transfer, debit card, check, wire transfer, winnings, and/or promotional or bonus credit or any way deemed allowable by the Gaming Board.

DETERMINING A WINNER

- Changes to Settlement, Adjustments to settlement for any changes or adjudications made by governing bodies after the event will be made by 6:00am EST the following day. Management does not recognize suspended games, protests, overturned decisions, changes to the score, etc. after the above time.
- Management, at its sole discretion, may delay payment of winning wagers if the final score is questioned or challenged.
- The unequivocally determined winner of a wager on any market that occurs while the market is still in progress will be used to determine the winner, regardless of if the market or event is played to its conclusion.

- If conference or division alignment is changed for any reason, the original futures on those specific categories will be void.
- If a league declares a championship, conference, division, award, or any other category a winner, all wagers on the winning team (or player) will be paid out regardless of team relocation, name change, or changes to regular season schedules or playoff formats, and regardless of when they are determined if they are designated winners by the league in a particular season.
- Wagers will be paid out if the league declares a championship, conference, division, or any other category a winner without playoffs taking place in a particular season unless a gaming regulator determines otherwise.
- If a league does not declare a championship, conference, division, or any other category a winner, all wagers on those futures markets will be void.
- For any all-star games, wagers will be settled on the official result as determined by the specific league. Late changes to any game formats will be used for settlement and will supersede any existing rules pertaining to the sport.
- Settlement will occur in near real time.

NON-PARTICIPANTS AND VOID SELECTIONS

- When a selection is made void or does not participate, then for straight wagers the money wagered will be returned, unless otherwise stated. In parlay wagers the stake will run on to the remaining selection(s), unless otherwise stated. with a two-leg parlay becoming a straight wager, a three-leg parlay becoming a two-leg parlay and so on. Note: this does not apply to Same Game Parlay or some Super Parlay wagers (for further information refer to Same Game Parlay Rules). Unless a specific reference is made in the individual section that covers the sport, abandoned or postponed events are void. However, wagers in markets that have already been unequivocally determined at the time of abandonment, such as 'first touchdown scorer' etc. will stand.

LATE SELECTION ADDITIONS

- For certain markets (awards, statistical markets, etc.) players/teams/coaches may be added to a market after the initial odds are released. If a player/team/coach is not listed at the time a wager is placed and ends up as the winner in that market, wagers placed on other selections will stand as a losing wager.

DEAD HEATS

- In a dead heat the money wagered on a selection is divided by the number of selections or competitors involved in the dead heat. The full odds are then paid to the divided stake, with the remainder of the stake money being lost. For example, three golfers are tied for 9th, 10th and 11th place in a Top 10 Place Market. As 3 selections are tied for two places the stakes are divided into two-thirds and settled at full odds.

RELATED CONTINGENCIES

- Accumulative/multiple wagers are not accepted where the outcome of one part of the wager contributes to the outcome of another. If taken in error, the stake will be invested on the selection with the highest odds. Where two or more selections are quoted at the largest odds, the stake will be divided equally between them. However, where the related parts of the wager are resolved at different times, unless 'special parlay' or 'special accumulative' odds are available, wagers will be settled as instructed with the odds for the second or subsequent legs being determined at each individual stage.

VENUE CHANGES

- Any change in the originally scheduled venue, with the exceptions of boxing, rugby (with some exceptions), tennis and UFC/MMA/Other Fighting Leagues, wagers on that event will be void, unless otherwise stated. This does not apply to any championship or season futures.

PARLAY RULES

- Parlay wagers involve multiple selections, and for the parlay wager to win all selections must win. In the event of a selection becoming "Void" or "Push" the number of selections in the parlay is reduced by the number of voids or pushes. Due to a void, the odds payout will also reflect the revised open selections and relevant odds.

SAME-GAME PARLAY RULES

- If any leg of a Same-Game Parlay wager relates to an existing market on site, rules for that market will apply.
- If any leg of the Same-Game Parlay wager is made void or settles as a push, then the whole wager would become a void or a push.
- A Same-Game Parlay wager must be placed from a single game. Same-Game Parlay wagers cannot be combined across multiple games.

SUPER PARLAY RULES

- A Super Parlay is a parlay that combines multiple Same-Game Parlays (SGP's), SGP's to a traditional parlay, or SGP's to a straight wager selection.
- Regular Same-Game Parlay rules apply to those legs of a Super Parlay. See Same-Game Parlay Rules.
- Regular parlay rules apply to those legs of a Super Parlay. See Parlay Rules.
- If a Same-Game Parlay leg of a Super Parlay is void, then the remaining parlay legs will be calculated at either the listed Same-Game Parlay Odds of the other selections or true odds where relevant.
- Sport maximum payouts apply and supersede the true odds of a Super Parlay.
- The total maximum number of selections in a Super Parlay is 25. The maximum number of selections in a Super Parlay are subject to change at the management's discretion.

TEASERS

- A teaser consists of two to eight football or basketball events parlayed together with adjusted spreads and/or totals with special odds applied.
- If a teaser wager is reduced to one live leg (due to a push, void, etc.), a wager with a winning selection will be paid at the correct straight wager teaser price.
- Teasers can only be placed on main, full-game spread and total markets.
- Teaser odds are displayed at time of placement, and odds are subject to fluctuation and can change at any time at the management's discretion.

SPORTS GOVERNING BODIES

- It is a condition of our acceptance of wagers from you that, and by offering to place a wager with us, you represent all of the following:

- You are not prohibited from entering into the wager by any term of your contract of employment or other professional contract or by any rule of a Sports Governing Body which applies to you.
- You are not aware of any circumstance which would make the placing of the wager a breach of a rule on betting applied by a Sports Governing Body.
- Where the wager is placed on the outcome of a race, competition or other event or process or on the likelihood of anything occurring you do not know the outcome of the event or have not been involved in events which adversely affected the potential outcome.
- In the event of any such representation by you proving to be false your stake will be forfeited, and we shall not be obliged to pay any winnings which might otherwise have been payable in respect of the bet.
- We have a memorandum of understanding with Sports Governing Bodies where we will share information with them where there is suspicious betting, or where we identify wagers that have not been placed in accordance with our rules for Sports Governing Bodies.

DATA SUPPLIED BY A THIRD PARTY

- Please be aware that data such as current scores, time elapsed etc. that is displayed on our site or on display boards is sourced from a 'live feed' provided by a third party and may be subject to time delay and/or be inaccurate. If you rely on this data to place wagers, you do so entirely at your own risk and Caesars Sportsbook accepts no responsibility for any loss (direct or indirect) suffered by the customer as a result of your reliance on it.
- Caesars Sportsbook will ensure that any statistics/line data that is made available to the player pertaining to an event uses a licensed source allowed and is kept reasonably accurate and updated. As required by relevant gaming regulatory body, Caesars Sportsbook will review the accuracy and timeliness of any statistics or line services.

RIGGING

- We reserve the right to withhold payment or void any bet(s) pending regulatory approval if we have any reasonable suspicion and/or evidence that the odds or the pool have been manipulated or where a race, event or match has been rigged and this reasonable suspicion and/or evidence has caused us to report the match to the proper regulatory authorities. Evidence of the above may be based on the size, volume or pattern of wagers placed with Caesars Sportsbook across any or all of our wagering channels.

TIME OF ACCEPTANCE

- If Live Wagering is available, wagers will stand and be settled at the current Live odds at the time the wager was struck. Where betting Live is not available, any wager that is inadvertently accepted after the actual, not listed, event start time will be void.

SCHEDULED START TIMES

- Dates and start times of events shown on site or on display boards are for guidance purposes only.

WAGERS PLACED AFTER RESULTS ARE KNOWN

- If a wager is accepted after a match/event has finished, the wager will be void even if a valid wager receipt is issued.

LIVE WAGER ACCEPTANCE

- For the purposes of security and integrity, Live wagers (meaning events that have already started) are subject to an automated time delay prior to acceptance.

NOTIFICATION OF ODDS OR PROPOSITION CHANGES

- Caesars Sportsbook has established procedures for suspending markets or events (i.e., stop accepting wagers for that market or markets associated with that event). When wagering is suspended for an active event, Caesars Sportsbook utilizes a computerized audit log that includes the date and time of suspension and its reason. Odds changes, line changes and during in play for timeouts, official reviews.

Mobile Sportsbook Application

- Prior to clicking “place bet”, if the price changes on a selection, the price will update automatically in the betslip. The customer has the option to select the behavior of wager placement when a price change occurs. This includes accepting all odds changes, accepting only odds with a higher payout, or reviewing odds that have changed. Within the “Review Odds Changes” setting, if there is a minor increase in price, e.g., +105 to +110, there may be times where this wager will be accepted and placed at the new price.
- A wager will never be placed at a worse price if the point spread, total or any additional market sees an adjustment to the line. Odds change thresholds are subject to review and change with regulatory approval.
- Customers have the ability to set prerequisite settings for the above to amend various acceptance thresholds, it is the customers responsibility to confirm settings.
- A betting market may be suspended when something of significance occurs or is likely to occur (ex: goal, touchdown, ejection, etc.). Betting markets may also be suspended due to the time elapsed in the match, the market becoming uncompetitive or for technical reasons. The above examples are not exhaustive and there may be other reasons that are not listed. While a market is suspended, wagers cannot be placed and cashout may not be available.

- The latest odds / lines are reflected on the display boards within the Sportsbook.
- For any wagers being placed via a kiosk:
 - Once a selection has been added to the betslip a odds/line change is indicated on the betslip.
 - It will turn yellow over a 3 second transition.
 - A message is placed at the top of the betslip.
 - The border around the selection will remain highlighted for the length of time that the selection remains in the betslip or until wager opportunity is recalled (for example selection added/removed)
 - If a wager is not placed, then a wager placement error is shown.
- For any wagers being placed via a teller (using the POS terminal at the window/ counter):
 - Once a selection has been added to the betslip a odds/line change is indicated on the betslip.

OBVIOUS ODDS / LINE OR TERMS ERRORS

- We do all that we can to avoid errors, however we cannot accept responsibility for obvious errors, also referred to as palpable errors, or omissions in respect of the announcing, publishing, or marking of odds, spreads, or results that occur despite our every effort to ensure total accuracy. Caesars will not cancel or void a wager due to an “obvious error” without prior approval of the relevant regulatory gaming body if required.
- A non-exhaustive list of “obvious errors” is as follows:
 - Odds or terms of a wager have been misquoted because of human or system error.
 - Where we have continued to accept wagers on a game which should have been suspended, including where the relevant event is in progress or has already finished.
 - The odds/terms offered are materially different from those available in the general market at the time the wager was placed.
 - The odds/terms offered at the time the wager is placed are clearly incorrect given the probability of the event occurring.
 - Where an error is made by us as to the amount of winnings/returns that are paid to you, including as a result of a manual or computer input error.
 - Where markets are created and graded for an event or matchup that does not take place
- We reserve the right, pending regulatory approval, to correct any obvious error made on a wager placed in one of our betting Live markets and settle at the correct odds or terms, which were available with Caesars Sportsbook (absent the obvious error) at the time the wager was struck.
- When a wager is placed on a market offered before an event has started and more advantageous odds or terms than those available with Caesars Sportsbook are applied pending regulatory approval, we will either settle the wager at the correct odds or terms available with Caesars Sportsbook

- The cashout settlement value is non-negotiable.
- If the cashout wager settlement value changes during a settlement transaction, the transaction will not be complete and a revised settlement value will be offered, which will have to be accepted before proceeding.
- Where an obvious pricing error, also referred to as a palpable error, occurs that selection may not be cashed out.
- If the cashout settlement value has been accepted in error, the cashout transaction will be made void and the wager will be settled on the original wager instructions with the correct odds applied.
- If subsequent attempts are made to place wagers and cashout on the same market(s) before the obvious error has been corrected then, the cashout settlement value and the wager stake(s) will be made void.
- Cashout is an automated facility and is subject to the availability of betting. Therefore, if betting is not available on any market with the given bet, a cashout settlement will not be offered.
- Cashout may be affected if your wager triggers a promotion. See individual promotional terms for details.
- In the event of system error, we reserve the right, pending regulatory approval to grade the cashout at the correct value or per regulatory approval voiding of erroneous wagers.
- Cashout may not be available due to technical issues and other factors. Customers will not have the benefit to retroactively grade a cashout during this time.
